

WHO ARE GREENSCAPE?

OUR STORY

Our journey began in a small shed back in March 2012. A small team with many years of combined experience in the solar PV industry, driven to create a dynamic renewable energy business. We provide an honest service and impartial advice to support home and business owners to go green.

Our showroom, The Energy Shop, is a place where you can experience renewable technology first-hand and receive support in reducing your CO2 emissions, whilst saving money at the same time.

Sourcing a large amount of work through personal recommendations, we have helped over 5,000 customers across the region with the supply and installation of solar PV Panels, air / ground source heat pumps and electric vehicle charge points.

YOUR LOCAL PV INSTALLER

Having just installed over 2,500 systems for the previous Solar Together schemes, we are delighted to have been accepted as the next Solar Together installer for the upcoming project running in the Cambridgeshire region. We look forward to helping even more of our neighbours go green.

CONTACT US ON:

**Greenscape Energy Ltd, The Energy Shop,
544-550 Woodbridge Road, Ipswich, Suffolk, IP4 4PN**

YOUR OFFER INCLUDES...

QCELL 375W MONOCRYSTALLINE PV PANEL

Winners of the intersolar award for 2 years in a row, the QCELL modules are well recognised as state of the art technology, enabling particularly high performance using a small surface area.

- **Efficiency:** > 20.6 %
- **Weight:** 19.5 kg
- **Warranty:** 12 year product warranty
25 year linear warranty
- **Dimensions (mm) :** 1840 (H) x 1030 (W) x 32 (D)

SOLIS 5G RANGE INVERTER

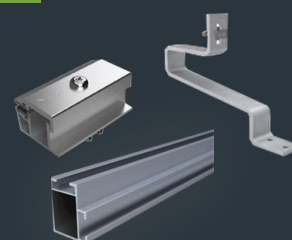

Awarded the title of "Top Inverter Brand" by the Photovoltaic Authority Research Organisation, Ginlong Solis are a global powerhouse in inverter manufacturing, with technology used in many high profile locations around the world, including the Eiffel Tower.

- **Efficiency:** 98.1 % maximum efficiency
- **Weight:** 11.5 kg
- **Warranty:** 10 years
- **Monitoring:** Monitor your performance with the app available for all smart devices
- **Dimensions (mm):** 543 (H) x 310 (W) x 160 (D)
(2.5kW - 6kW)

RENUSOL MOUNTING SYSTEM

For the past 24 years Renusol have been developing and manufacturing assembly solutions for the photovoltaic industry from their base in Cologne. These German-engineered mounting systems are recognised for their high quality and cost-effectiveness.

ADDITIONAL OPTIONS...

You may have been offered battery storage or a power diverter as part of your Solar Together personal recommendation.

If these did not form part of your recommendation, you can still discuss these options when one of our surveyors comes out to measure your roof.

SOLIS HYBRID / AC COUPLED INVERTER

Awarded the title of "Top Inverter Brand" by the Photovoltaic Authority Research Organisation, Ginlong Solis are a global powerhouse in inverter manufacturing, with technology used in many high profile locations around the world, including the Eiffel Tower.

- **Efficiency:** > 96.8 %
- **Weight:** 17 kg
- **Warranty:** 10 years
- **Monitoring:** Monitor your performance with the app available for all smart devices.
- **Dimensions (mm):** 505 (H) x 333 (W) x 249 (D)
(3kW - 6kW)

PYLON US2000 PLUS LI-ION BATTERY

Pylontech are the leading manufacturers of lithium phosphate batteries, being established since 2009 they are supplying the perfect battery storage systems for the rapid growth of the market.

- **Depth of Discharge:** 90 %
- **Weight:** 24 kg
- **Warranty:** 10 years
- **Dimensions (mm):** 442 (W) x 410 (D) x 89 (H)
(For one 2.4kWh module)

SOLAR IBOOST

Marlec Engineering has recently celebrated its 40th anniversary in the renewable energy industry. They launched the 'Solar iBoost' in 2013, that quickly became the world's best selling PV immersion controller heater.

- **Warranty:** 24 months
- **Dimensions (mm):** 225 (W) x 158 (H) x 92 (mm)

YOUR OFFER INCLUDES...

The following products have been sourced for your installation using market-leading manufacturers, based on their performance, reliability and cost-effectiveness.

SOLIS 3.0KW 5G RAI ENERGY STORAGE AC COUPLED BATTERY CHARGER

Designed by world leading research and development team made by professors and specialists. Solis inverters are praised by customers all over the world due to their high quality and reliability.

- **Efficiency:** 94 %
- **Weight:** 15 kg
- **Warranty:** 10 Years
- **Dimensions (mm):** 525 (H) x 403 (W) x 170 (D)

PYLON US2000 PLUS LI-ION BATTERY

Pylontech are the leading manufacturers of lithium iron phosphate batteries, being established since 2009 they are supplying the perfect battery storage systems for the rapid growth of the market.

- **Depth of Discharge:** 90 %
- **Weight:** 24 kg
- **Warranty:** 10 years
- **Dimensions (mm):** 442 (W) x 410 (D) x 89 (H)
(For one 2.4kWh module)

PACKAGE PRICING

The standard package price includes supply and installation of your solar panels, inverter and mounting system, fully installed, including 10 year warranties and online monitoring.

All prices are inclusive of 0% VAT. Commercial customers will be subject to the 20% VAT rate.

System Size	Price
4 x Panels	£3,243
5 x Panels	£3,449
6 x Panels	£3,628
7 x Panels	£3,840
8 x Panels	£4,034
9 x Panels	£4,311
10 x Panels	£4,578
11 x Panels	£4,898
12 x Panels	£5,245
13 x Panels	£5,616
14 x Panels	£5,988
15 x Panels	£6,309
16 x Panels	£6,620
17 x Panels	£6,881
18 x Panels	£7,143
19 x Panels	£7,404
20 x Panels	£7,665
21 x Panels	£7,927
22 x Panels	£8,188
23 x Panels	£8,449
24 x Panels	£8,710
25 x Panels	£9,267
26 x Panels	£9,582

27 x Panels	£9,940
28 x Panels	£10,117
29 x Panels	£10,331
30 x Panels	£10,624
31 x Panels	£10,912
32 x Panels	£11,113
33 x Panels	£11,429
34 x Panels	£11,822
35 x Panels	£12,117
36 x Panels	£12,303
37 x Panels	£12,604
38 x Panels	£12,791
39 x Panels	£13,060
40 x Panels	£13,278
41 x Panels	£13,563
42 x Panels	£13,872
43 x Panels	£14,170
44 x Panels	£14,309
45 x Panels	£14,548
46 x Panels	£14,910
47 x Panels	£15,258
48 x Panels	£15,546
49 x Panels	£15,876
50 x Panels	£16,112

PACKAGE PRICING

The standard package price includes supply and installation of your solar panels, including your battery storage solution.

All prices are inclusive of 0% VAT.

System Size	Battery Capacity	Price
Small	4.3 kWh	£ 3,026
Medium	6.5 kWh	£ 3,977
Large	8.6 kWh	£ 4,926

BATTERY STORAGE SIZES

The battery storage solution provided within the scheme is modular and stackable, ranging in sizes from 4.3 kWh to 8.6 kWh.

Each individual module equates to ~ 2.15 kWh of usable battery storage.

- 4.3 kWh = 2 x battery modules
- 6.5 kWh = 3 x battery modules
- 8.6 kWh = 4 x battery modules

PACKAGE PRICING

The standard package price includes supply and installation of a battery retrofit storage solution, to compliment your existing solar system.

All prices are inclusive of 20% VAT.

System Size	Battery Capacity	Price Including VAT
Small	4.3 kWh	£ 3,631
Medium	6.5 kWh	£ 4,773
Large	8.6 kWh	£ 5,911
XLarge	13.0 kWh	£ 8,196

BATTERY STORAGE SIZES

The battery storage solution provided within the scheme is modular and stackable, ranging in sizes from 4.3 kWh to 13.0 kWh.

Each individual module equates to ~ 2.15 kWh of usable battery storage.

4.3	kWh = 2 x battery modules
6.5	kWh = 3 x battery modules
8.6	kWh = 4 x battery modules
13.0	kWh = 6 x battery modules
